

DISABILITY EMPLOYMENT AWARENESS MONTH

What is Supported Employment (SE)?

SE starts with the belief that everyone who wants paid employment can attain it - if the proper supports are in place. In collaboration with the job seeker and employer, job seekers receive support tailored to their specific skills and career goals; employers are supported with advice and resources to help meet their unique labour needs.

What is MentorAbility?

The business case for inclusive workplaces is well proven. MentorAbility is a national initiative providing employers with a safe space to learn about inclusive workplace for people experiencing a disability, while also providing a short-term mentorship opportunity to someone interested in your industry.
